Powerful Tools for Caregivers is a program that teaches empowerment for family caregivers. Caring for a family member is hard work. This 6-week class supports family caregivers to develop better skills for self-care and well-being. This class will teach you how to reduce caregiver stress, change negative self-talk, manage emotions, be better able to make difficult caregiving decisions, and improve communication regarding challenging situations.

This program has shown to have a positive impact on family caregivers. When family caregivers utilize resources available to them, they feel less anxious and depressed regarding their caregiving situation and are able to provide better care.

Class participants are given *The Caregiver Helpbook* to accompany the class and provide additional caregiver resources.

Are you a caregiver? Caregiving takes many forms. You may help a relative or friend with transportation, housekeeping, grocery shopping, personal care, medications, emotional support, doctor appointments, social activities, living arrangements, financial concerns, legal or insurance issues.

Whether you provide care for a spouse, partner, parent, or friend, at home or in a care facility, whether down the block or miles away, yours is an important role. This course is for caregivers like you.

Powerful Tools for Caregivers

Registration Form

Please complete and send to the Council by March 24, 2025, call us or email information to us.

Who will attend?

- 1) _____
- 2) _____
- 3) _____
